## About Us

Rogers & Hardin is the Atlanta-based law firm with a national reputation for excellence. We've been helping clients solve challenging legal problems for over 40 years. Many clients comment that our approach is unique. Key differences are:

**Direct access to leading attorneys.** Most of our partners are recognized for excellence by one or more of the leading national ranking services. Other firms have ranked partners too. The Rogers & Hardin difference is that these nationally recognized partners are hands on working directly on client matters. Their skill brings efficiency and excellence to our work product. Efficiency translates into fewer hours expended and less supervision required for our clients. Clients notice and appreciate both.

**Lower rates without sacrificing attorney caliber.** Our service delivery model differs from many of our peers. We maintain a lean staff-to-attorney ratio in order to give clients direct access to our partners, who have rates that are often significantly lower than their peers. This approach adds tremendous value for our clients.

**Maximizing client success.** We measure success differently than other firms. We focus on client satisfaction, responsiveness and exceeding expectations. For clients who have experience working with legal teams that only think about them when the meter's running it is a noticeable difference.

**We maintain both transactional and litigation practices.** Sustaining excellence across both disciplines within our footprint is challenging to say the least. Yet the benefits it delivers to clients are immense. Rogers & Hardin is the only firm in the Southeast recognized for excellence across such diversity in practice coverage outside of a Big Law platform. Clients appreciate having that choice.

**We take cases to trial.** Our firm is skilled at all phases of dispute resolution including trying cases in front of the federal, state and local bars. We are often the firm engaged by other law firms when they need trial counsel support. Clients find that having a firm with a successful reputation as a strong trial adversary gives them more flexibility in resolving disputes.

**Global support at preferred rates.** Rogers & Hardin is an active member of Interlaw, the elite global network of pre-eminent independent law firms

with over 7,000 attorneys based in more than 150 cities worldwide. This gives our clients direct access to a global network of law firms on a preferred fee scale no matter where their business takes them.

We invite you to contact one of our partners for more information on our firm or to call us at 404-522-4700.
